PROJECTS / OPEN-SOURCE

Samadhan | Link *NodeJs, React, ExpressJs, MySQL*

- Centralized grievance redressal system that unifies complaints from multiple sources.
- Automatically routes issues to the appropriate government departments based on complaint type.
- Provides a secure and transparent platform for citizens to submit and track their complaints.
- Enables officials to efficiently manage, monitor, and resolve grievances.
- Improves governance through real-time updates, dashboards, statistics, and analytical reports.

PayLift - Ongoing Project *NodeJs, Java, MySQL, Flutter*

- Working on PayLift, a ride & parcel app, focusing on backend development, API design, and database management with Node.js and MySQL.

CERTIFICATIONS

- Fundamental of CyberSecurity (EDU-102) - **ZSCALAR** | **Academy**

HONORS & AWARDS

- Awarded by the Collector of Raipur for my significant contribution to the SAMADHAN grievance redressal system.
